JANUARY NEWSLETTER

JANUARY MEETING:

Thanks to all those attending, we had a lively exchange of ideas and information at our Club meeting on January 24th. Everyone got a chance to tell what they got for Christmas and to discuss programs for the near future. Many thanks to Byron Smith for leading us through batch commands and ram disk allocation.

DOS SIG MEETING:

Sid Findley and Byron Smith will be giving a special DOS presentation on Thursday, February 7th at the USPFO Office at Camp San Luis beginning at 6:00 p.m. We have noted a genuine interest in DOS and we sincerely encourage everyone attending to bring their computers (sans printers). We have approximately six or seven plugs at the USPFO that can be used.

FEBRUARY MONTHLY MEETING:

The February monthly meeting will be held at Camp San Luis on Thursday, February 28th, beginning at 6:00 p.m. We hope to have a highly qualified Professor from Cal Poly Computer Department if the details can be worked out. Otherwise, there will be a presentation on the new version of Norton Utilities.

As an added item of interest, bring your campaign banners and bunting, it is appropriate for us to elect officers for 1985 at our February Meeting.

Glad to have everyone back in the fold after such happy Holidays.
